

FEES & CONDITIONS

Minimum Fees and Conditions applying to Extensions and New Connections to Alpine Energy Ltd's Electricity Distribution Networks (HV and LV).

Fees:

The following fees are additional to the Contract price for the Electrical Work for your Extension and New Connection:

Establishment Fee: \$250-00 + G.S.T.

Inspection Fee: \$50-00 + G.S.T.

Conditions:

The Conditions listed here are the minimum for your AEL Extension and/or New Connection. Please refer to our Quotation and your "Contract for Electrical Work" for details applying particularly to your Contract.

New Motor Installations:

- irrigation pump motors of 10kW or greater nameplate rating must have "soft starter" fitted.
- motors of 10kW or greater nameplate rating must have power factor correcting capacitors fitted to correct power factor to 0.95 or better.
- new irrigation pump motor supplies must be fitted with an emergency load control relay to allow Alpine Energy Ltd to control your irrigation load during periods of high load to avoid overloading Alpine Energy Ltd's Electricity Distribution Network equipment.

All Extensions and New Connections:

- if the quotation for the work is greater than \$3,000-00 + G.S.T. then we require half deposit paid before work is started, with the balance due on the 20th of month following completion of work, or before power is connected.

Refer to our Quotation and your "Contract for Electrical Work" for cost and condition details particular to your Extension and/or New Connection.

Refer also to our "Network Code" and "Network Extensions and Upgrades Policy" documents for further conditions and guidelines relating to Extensions and New Connections.

Dated: 17/11/2009.
