

# Application to Dig near Power Poles

PERMIT NO:

Allow a minimum of five working days for applications to be processed.

## ELECTRICITY (SAFETY) REGULATIONS 2010 - REGULATION 17 INSTRUCTIONS

Prior written consent is required from Alpine Energy Limited if you are excavating:

- (a) at a greater depth than 300mm within 2.2m of the pole or stay wire of the line; or
- (b) at a greater depth than 750mm between 2.2m and 5m of the pole or stay wire; or
- (c) creating an unstable batter.

Written consent from Alpine Energy Limited is not required for:

- (a) vertical holes, not exceeding 500mm diameter, beyond 1.5m from a pole or stay wire
- (b) normal agricultural cultivation
- (c) the repair, sealing or resealing of the existing surface of any road, footpath or driveway

Please also supply your Site Specific Safety Plan, or equivalent documentation with the description of works including the five or six digit pole ID numbers, excavation depth, distance from nearest face of pole and relevant hazards and proposed controls for this application.
