The directors of Alpine Energy note the amendment to the Information Disclosure exemption. Disclosure and auditing reliability information within Schedule 10, issued by the Commerce Commission on 17 May 2021 that has removed the auditor report requirements relating to the treatment of successive interruptions for reporting SAIDI, SAIFI, and interruptions, because of potential inconsistencies in treatment of approaches across the industry.

Directors note that they do not appear to have been provided a similar exemption relating to treatment of successive interruptions regarding their certification. The information has been prepared on a basis consistent with the previous year's disclosure and Alpine network has recorded successive interruptions, originating from the same cause, as single interruptions.
